28<sup>th</sup> November 2016

Dear Parent/Carer,

Your child is now using Mathletics!

Mathletics is a web-based learning program that combines home and school learning, via the Internet, using a unique username and password for each child. It allows children to develop their mathematical understanding in a fun and exciting way and allows them to work at their own pace and in their own time.

Mathletics has been introduced to all children in Key Stage 1 as we feel that the educational benefits are huge. Your child's maths teacher will be able to set activities that are in line with their current learning and will be able to access and monitor their results.

It is recommended that you spend some time looking at the programme with your child so that you can gain the greatest understanding of how Mathletics works. Information on how to use Mathletics can be found on the attached sheets. If you choose to, you will be able to sign up to receive weekly reports. Receiving these reports will allow you to monitor your child's progress and achievement. Information on how to sign up is also on the attached form.

We thank you for your cooperation and continued support

Yours sincerely,

Mr. Kelly  
Maths Co-ordinator
